

Lab assistant position

Applications of trace metal analysis in carbonates

Background

A full-time lab assistant position is available jointly at the European Institute of Marine Sciences (IUEM) and the French Research Institute for Exploration of the Sea (IFREMER) in Brest, France. The position is funded by the LabexMER International Chair on Stable Isotopes.

This position will focus on application of trace elements in carbonates to address questions in biomineralization, marine chemistry, ocean acidification, and paleoceanography. The position will involve data analysis, manuscript preparation, and sample preparation and analysis.

Expected profile

The candidate must have already completed a B.S. and have previous experience in one or more of these areas.

Type of work contract

- Start date: June 2016
- Duration of appointment: 12 months with possibility of extension
- Salary range: dependent on experience

How to apply

Application deadline: May 6, 2016.

To apply, please send cover letter, 1-2 page summary of previous research experience and interests, detailed CV including names of two references, **by e-mail** to: [contact-labexmer\[at\]univ-brest.fr](mailto:contact-labexmer[at]univ-brest.fr)
